- The primary current is 5A~5000A,while the secondary current is 20mA, 0.3A, 1A, 5A. The products line covers accuracy of 0.2S, 0.5S, 0.2, 0.5, 1.0.
- Vacuum-heat treatment for the iron core achieves excellent performance and stable precision.
- The outer case is made of PC materials which is non-flammable. the performance is reliable and the product is safe for use.
- Easy installation; Fixed by metal slice or Platen.
- The performance meets the standard of GB20840.2-2014 “Current Transformer”.

- The use does not surpass 0.66KV in the rated voltage the AC-circuit, the long lasting work electric current does not surpass the rated value.
- The product is a minus polarity, The first connection wiring symbol is P1 P2,the corresponding secondary current wiring symbol is S1
